

Community Foundation Habitat for Humanity Construction Update

As you can see from the pictures, the Community Foundation's Habitat Home is coming along quite nicely and quite quickly! Outside walls are sided, windows are in, roof is on, heating and plumbing are in, and the studs for the inside walls are all in place. Note - even the shutters and the address have been added to the outside of the home. There's still lots of work to be done. On Saturday, June 6th, the drywall will be installed. Then it's time to wait for the inspectors and, in 3 or 4 weeks, it will be time to paint. Volunteers are still needed for every Saturday - Please call Barb Nelson to get the details and to sign up.
