The Neighborhood Grants Program exists to:

- Encourage and support the work of neighborhood-based groups and organizations trying to preserve and/or improve the quality of life in their neighborhoods;

- Promote civic pride in our community.

WHAT WE LOOK FOR

We look for projects that:

- Are generated, led, and executed by residents of the neighborhood to the extent possible;
- Build on the assets existing in the neighborhood, including using the skills of residents, involving youth, or working with an existing neighborhood group; and
- Encourage partnerships between residents, businesses, non-profits, and institutions (e.g., schools) within the neighborhood.

The maximum amount granted per project is \$2,500.

*Beautification Projects

- Permanent fixtures (e.g., trash receptacles, planters) must be installed on public property or common areas.
- Landscape projects must be permanent improvements to the area (e.g., shrubs, trees, perennials), and have a maintenance plan (e.g., watering, weeding).

***Reforesting Neighborhoods:** Trees may only be planted on public or common areas (not on private property).

PLEASE NOTE:

- If applying for a project similar to previously funded projects, you must provide a sustainability plan for future years.
- If there is a potential that your project would be impacted by COVID-19 mitigation requirements, the applicant should make note of what modifications will be made to ensure the project will comply with local health department mandates in order to provide a safe experience for any and all participants. As it is impossible to anticipate what mitigations may be in place throughout 2022, we encourage all applicants to consider what modifications might be appropriate for their project and make note of this within their application.

WHAT WE WON'T FUND

Grants are **not** made from the Neighborhood Grants Program for the following:

- Landscaping private property
- Refreshments for neighborhood meetings
- Entertainment
- Activities that primarily benefit non-resident organizations including nonprofit and for-profit organizations.
- Projects and programs that promote a religion or require participation in a religious activity as a condition for receiving services. However, grants may be made to faith-based organizations for other purposes.
